AI Info

**Development Stage**

At 11 months, the puppy is entering the adolescent stage, where it starts to develop its personality and specific traits. This is a crucial time for ...

**Physical Needs**

Puppies at this age require regular physical activity to maintain their health and prevent behavioral issues. It's essential to feed an 11-month-old puppy a high ...

**Training**

This is a great time to start (or continue) basic training and teach new commands, as they are often more receptive to learning at this age.

**Fun Fact!**

Puppies Know How to Manipulate Humans
The term "puppy eyes" is best known as a joke that is sometimes told about human children, but ...
